SilentDrivePRO SOUND DAMPENING

AMD's new SilentDrive Pro Mat Sound Deadener offers premium noise reduction with three different versions to suit various needs. Two of the variants feature a 2mm thickness, with one showcasing blue lettering and the other white lettering for aesthetic preferences. For those seeking enhanced sound insulation, a thicker 7mm option is available. Each box includes 10 sheets, covering a total of 43 square feet, making it an excellent solution for reducing vibrations and road noise in vehicles or other applications requiring soundproofing.
